Tugas Grafika Komputer Algoritma Pembentukan Lingkaran

1). Algoritma Bresenham

Berikut kode pembentukan lingkaran dengan metode algoritma brensenham:

```
lingkaran_bresenham.html X ♦ lingkaran_midpoint.html
\diamond lingkaran_bresenham.html > \Theta html > \Theta body > \Theta script > \Theta bresenhamCircle
     <!DOCTYPE html>
      <html lang="en">
          <meta charset="UTF-8">
          <meta name="viewport" content="width=device-width, initial-scale=1.0">
          <title>Algoritma Lingkaran Bresenham</title>
          <h2>Algoritma Lingkaran Bresenham</h2>
          <canvas id="canvasBresenham" width="500" height="500" style="border:1px solid □black;"></canvas>
            const canvasB = document.getElementById("canvasBresenham");
              const ctxB = canvasB.getContext("2d");
              function putPixel(x, y, color) {
                  ctxB.fillStyle = color;
                  ctxB.fillRect(x, y, 1, 1);
              function drawCircle(x0, y0, x, y, color) {
                  putPixel(x0 + x, y0 + y, color);
                  putPixel(x0 - x, y0 + y, color);
                  putPixel(x0 + x, y0 - y, color);
                  putPixel(x0 - x, y0 - y, color);
